

## Inviting Script

Hi (name) . My name is (your name) and I am part of a local business networking group. We meet weekly to pass referrals and we were just mentioning that we do not have a (profession) in our chapter to pass our referrals to. I was calling to see if you would like to be the person we send those referrals to?  
(YES!)

Great! We meet (date, time, location). Bring plenty of business cards to pass out to the group. You will get an opportunity to tell the group more about yourself and business. I will be out front looking for you. See you then.
